

# Laszlo Monostori

## Hungarian Academy of Engineering

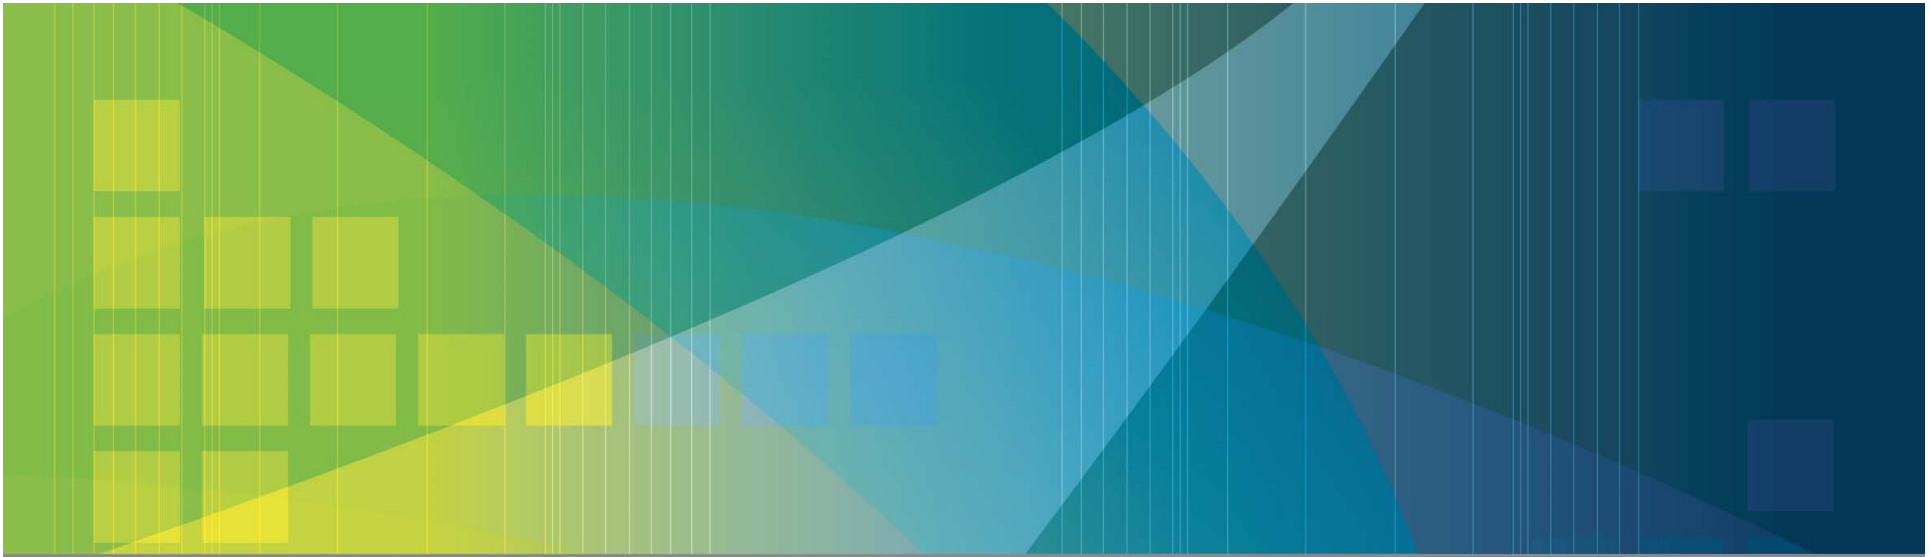

Thesis 4:  
Even basic research should provide answers to  
industrial needs.

**Thesis 4:  
Even basic research should provide answers to industrial  
needs.**

**Thesis 4:  
Even basic research should provide answers to industrial  
needs.**

Results:

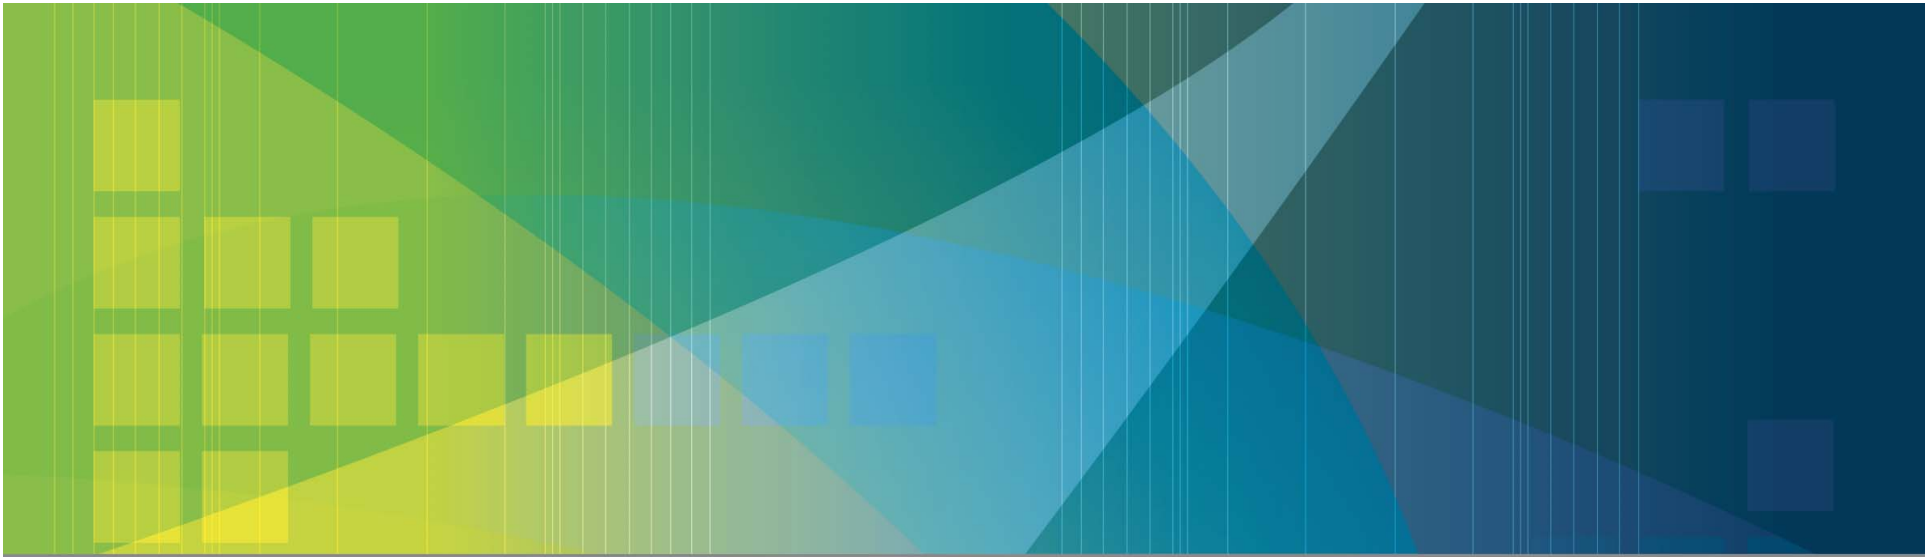

- > Yes, I agree to it:
- > No, I do not agree to it:

- 
- > The solution of the big challenges the world faces today requires the bridging the valley of death between basic and applied research.
  - > The real problems are complicated enough: “working on applied things doesn’t destroy a kernel of genius... if focuses the mind”.
  - > Distinction between “basic” and applied “research” is anachronistic.
  - > Some positive examples of industry-academia cooperation should be followed, new ones are to be elaborated.

**Thesis 4:**  
**Even basic research should provide answers to industrial needs.**

- > Have you changed your mind? Do you agree to the thesis?
